Mr. Clean Super Twist Mop Refill Head: A convenient and cost-effective way to extend the life of your Mr. Clean Super Twist Mop (sold separately). Designed for use on various flooring surfaces, this refill head is built for efficiency and ease. The microfiber material absorbs dirt and dust effectively, while the integrated Magic Eraser takes care of scuffs and tough messes. This versatile mop head can be used in any room around the home that needs a deep cleaning, including the kitchen, bathroom, laundry room, entryway, or under and around furniture and cabinets. One replacement head measuring 13.5" x 6.25" x 3" is included for a machine washable and reusable solution to traditional mop replacements. 1. Heads are available on demand. 2. To Use: Hold blue rubber grip and white wringer, then twist wringer clockwise and push down to release lock. 3. To Wring: Pull plastic wringer up (do not lock) and twist clockwise. 4. Removing Refill: 1. Remove Magic Eraser by popping off the pad. 2. Expose metal handle and c-pin by spreading material near top of mop. 3. Remove c-pin by pulling it out, then slide mop head up and off pole. 5. Washing Instructions: 1. Remove mop-head according to instructions. 2. Machine wash in cold water, separately or with other non-linting articles. 3. Air dry; do not use fabric softener or bleach. 6. Easy ratcheting twist action and removable machine-washable mop head with super absorbent microfiber for tough scuffs. 7. Customer Support: Toll-free 1-888-318-8521, Mon-Fri 9 am-5 pm EST. 8. Caution: Keep out of reach of children and pets to avoid accidental ingestion; may cause eye irritation; do not use on skin or other body parts for personal cleansing. Changing a Mr. Clean mop refill can seem daunting if you're not familiar with the system, but once you understand how it works, it's actually quite simple. The mop refill system involves a mop handle that attaches to a mop head, which has a refill pad that connects via hook and loop technology. This refill pad is designed for easy replacement when dirty or worn out, and comes in various sizes and types to suit your cleaning needs. Before starting the process, it's essential to prepare by having all necessary tools on hand: a new mop refill, gloves, and a bucket of clean water. You can purchase a new Mr. Clean mop refill from your local store or online. To change the refill, begin by removing the old one from the mop head. Put on your gloves and press the release button or pull the lever at the top of the mop head to detach the used refill. This should come off quickly, allowing you to discard it and prepare for the new one. Next, follow these steps to remove the old Mr. Clean mop refill safely: 1. Ensure the mop is unplugged and cool. 2. Press the green button in the center of the mop head to release the refill. 3. Gently pull the refill off the mop head's jaws. If it's stuck, use a firm grip and carefully wiggle it to loosen it before pulling it off completely. Dispose of the used refill properly, then you're ready to install the new one. To install a new Mr. Clean mop refill: 1. Remove the old mop head and dispose of it properly. 2. Unpack your new refill and remove any plastic wrapping covering it. 3. Attach the new mop head by inserting the mop handle and following the instructions for proper connection via hook and loop technology. By understanding these steps, you can keep your home clean and tidy with ease using your Mr. Clean mop system. 1. The refill’s slot should be twisted until it is securely attached, ensuring the mop head is centered and not bunched up or twisted. 2. Regularly change your mop refill to maintain cleanliness. 3. Adjusting the Mop for Optimal Use involves customizing the height of the mop based on individual preferences. 4. To adjust the height, press the button on the handle and slide it up or down until desired. 5. Cleaning and Storing a Used Mr. Clean Mop Refill requires rinsing and soaking in warm water to loosen dirt. 6. Proper storage is key to prolonging the mop refill's life. Changing the Mr. Clean Mop Refill is a Straightforward Process To replace the Mr. Clean mop refill, first remove the old one and ensure it's properly secured into the mophead. A click indicates the refill is seated correctly. If issues persist, inspect the mophead for blockages or damage, clean it as needed, and try again. Simple steps will help a smooth replacement process. Regular Mop Refill Changes Ensure Optimal Cleaning Replacing the Mr. Clean mop refill takes just a few minutes, leaving your floors spotless with every use.
